

KAB OPERATOR (II)

Today's workplaces thrive on a diverse range of staff members in various environments and modern businesses require a seat that can accommodate all this. We at KAB Seating have spent years developing the KAB Operator (II), the latest feature-packed addition to the renowned range of KAB 24/7 seating.

Enhancing this mid back 24/7 office chair is the customisable seat slide feature and an independent seat-cushion tilt adjustment. These enable the user to customise the length and angle of the seat-pan to suit their individual needs. This makes the Operator (II) more versatile in 24/7 shift work environments where user shapes often differ dramatically.

Another new feature is the addition of pockets. These are designed to house the user's mobile phone and ipod. The KAB Operator now also includes the standard headrest which offers the user greater neck support.

All other features such as backrest recline, lumbar support and height adjustment remain the same as the KAB Executive and Controller.

- ✓ AFRDI Level 6 Certified
- ✓ Warranted to 225kg
- ✓ 5 Year Warranty

Available in:

- ✓ Black Leather
- ✓ Havana Black Cloth
- ✓ Costa Blue Cloth
