

The substances listed below are prohibited and must not be in the products supplied

Group	Substance Name	Example of type or area of use
Amines	2-Naphthylamine salts	Intermediate substance for colourants and antioxidants
	4,4' Diaminodiphenylmethane	Curing agent for paint
	Methylenedianiline (4,4')-(MDA)	Hardener in paints
	Nitrosamine	Rubber
	N,N'-ditolyl-p-phenylenediamine	Antioxidant for rubber
	N,N'-dixylil-p-phenylenediamine	Antioxidant for rubber
	N-tolyl-n'-xylyl-p-phenylenediamine	Antioxidant for rubber
	Phenyl-β-naphthylamine	Antioxidant for rubber and stabilizer for lubricating oil
	Triethanolamine	LLC
CFC Compounds	CFC 11	Cooling agent, freon
	CFC 113	Cooling agent, freon
	CFC 114	Cooling agent, freon
	CFC 115	Cooling agent, freon
	CFC 12	Cooling agent, freon
Chlorinated Hydrocarbons	1,1,1-Trichloroethane	Solvent
	Carbon tetrachloride	Solvent
	Methylene chloride	Solvent cleaning, foam blowing agent
	HCFCs	Blowing agent, solvent
	Hexachlorobutadiene	Solvent
	Polychlorinated biphenols (PCB)	Insulators, Insulating oils, inks and coatings
	Tetrachloroethylene	Solvent
Colourants	Azoic colourants	Textiles, leather
Fibres	Asbestos	Insulating material, friction agent, filler for resins, adhesives, insulators and seals
Flame Retardants	Polybrominated biphenyls (PBB)	Flammability modifier in plastics and textiles, electrical components
	Polybrominated diphenyl ethers (PBDE)	Flammability modifier in plastics and textiles, electrical components
	Phosphor based flame retardants substances	for plastics (resins) and rubber
	Tris (1-aziridinyl)-phosphine oxide	Triphenyl phosphate
	Tris (2,3-dibromopropyl) phosphate	Trimethyl phosphate
Halon	Halon 1211	Flame Retardant
	Halon 1301	Flame Retardant
	Halon 2402	Flame Retardant
Lubricants	Chlorinated paraffins	Oils, fire retardants
	Mineral oil with PAHs	Base oils, lubricants
Metals	Arsenic + compounds	Glass, LEDs, agricultural chemicals, colorants, pigments, antiseptic agents, hardening agents for lead (conductors, batteries).
	Cadmium + Cd compounds	Pigment, alloying element, coatings, glass, electrical/electronic equipment
	Hexavalent chromium	Anti-corrosion treatment
	Lead + compounds	Metallic lead, alloying element, organic material, glass, ceramic, Electrical/electronic material
	Lead chromate	Pigment
	Mercury + Hg compounds	Electric equipment
	Selenium + its compounds	Glass, LEDs, black oxide finishes, pigments and electronic components
	Organic tin compounds	
	Trialkyl-/triaryl-tin compounds	Bis (tributyltin) 2,3-dibromosuccinate
	Tributyltin sulphamate	Tributyltin laurate
	Triphenyltin-N,N-dimethyldithiocarbamate	Tributyltin methacrylate

The substances listed below are prohibited and must not be in the products supplied

Group	Substance Name	Example of type or area of use
Metals (continued)	Triphenyltin acetate	Tributyltin fluoride
	Triphenyltin hydroxide	Tributyltin chloride
	Triphenyltin chloroacetate	Bis (tributyltin) maleate
	Bis (tributyltin) fumalate	Bis (tributyltin) naphthenate
	Triphenyltin chloride	Tributyltin – 1,2,3,4,4a,4b,5,6,10,10a-decahydro-7-isopropyl-1,4a-dimethyl-1-phenanthlenecarboxylate and its analogs
	Tributyltin acetate	Triphenyltin carboxylate (C9,C10,C11)
	Bis (tributyltin) oxide	Di-μ-oxo-di-n-dibutyltin borohydride (DBB)
	Bis (tributyltin) phthalate	Alkyl (C-8)-acrylate, methyl methacrylate, tributyltin methacrylate copolymer
	Triphenyltin fluoride	
Chemicals found in Plastic	Di(2-ethylhexyl)phthalate DEHP	Sealants, plastics
	Di(methoxyethyl)phthalate	Adhesives, plastics
	Dibutyl phthalate	Adhesives, paints
	Polychloronaphtalene (PCN)	Plasticizers, additives for lubricants, pesticides, antiseptic agents, fillers for paper condensers, insulating oils and non-inflammable substances
Chemicals found in Rubber	Aminobiphenyl (4-) + salts	Dye. Contaminant in textile and leather paints, antioxidants in lubricants, rubber/latex, plastics.
	Benzidine (+ salts)	Catalyst agents and colourants
	Thiocarbamide	Rubber and plastic
Solvents	2-Ethoxyethanol	Solvent
	2-Ethoxyethanol acetate	Solvent
	2-Methoxyethanol	Solvent
	2-Methoxyethanol acetate	Solvent
	Benzene	Solvent
Surfactants	Nonylphenol + isomers	Used as ethoxylates
	Nonylphenol-ethoxylates	Cleaning agent
	Octylphenol	Used as ethoxylates
	Octylphenol-ethoxylates	Cleaning agent
Other Substances	Pentachlorobenzene	
	2,4,6-tri-tert-butylphenol	
	Simazine
